SKILLS

- **Front-End Development:** HTML5, CSS3, JavaScript (ES6+), Bootstrap, Tailwind CSS.
- **Development Tools & Workflow:** Responsive Web Design, npm, Version Control (GitHub).
- **Tools and Platforms:** VS Code, Figma (UI understanding & Developer Handoff), Canva.
- **Soft Skills:** Communication, Note Taking, Problem Solving, Adaptability, Planning, Public Speaking.

PROJECTS

Personal Portfolio Website :

- Designed and developed a static portfolio website using HTML, CSS, and JavaScript.
- Focused on **layout structure**, **typography**, and visual design principles.
- Presented personal information, skills, and projects in a clear, organized format.

Website Clone Project :

- Built a visually accurate clone of an existing website with layout and design consistency
- Applied **responsive design** techniques for consistent viewing across screen sizes.
- Improved understanding of real-world UI structures and CSS styling practices.

Bootstrap-Based Website :

- Developed a responsive website using **Bootstrap grid system** and components.
- Implemented reusable UI elements such as navigation bars, cards, and buttons.
- Followed a **mobile-first approach** to ensure consistency across devices and browsers.

Weather API Web Application :

- Built a dynamic weather application using JavaScript and a public weather **API.**
- Designed a clean and responsive interface for enhanced user experience.
- Implemented real-time data **fetching and error handling** for reliable results.
